Experienced XC

Competition XC

The CYCLUS ONE is a compact and lighter EN / LTF B classified paraglider with an enhanced use versatility.

The wing is recommended for a huge range of pilots, from outstanding beginners acquiring their second wing, to experienced pilots who want to fly comfortable with a predictable wing in more active weather conditions, as well as pilots who fly a B class wing and want to evolve into Cross Country flights or even improve in their familiar flight site.

The CYCLUS ONE is a paraglider with efficient high performance features without giving up the passive safety of a classic B, and thanks to the appliance of sophisticated technologies, it offers a surplus in flight comfort, glide and stability.

HIGHLIGHTS

- + Comfort
- + Performance
- + Glide
- + Lighter
- + Ease of climbing in thermals
- + Ecologic
- ✓ Profiles type shark mouth
- ✓ X-battens
- ✓ 3D shaping
- ✓ Mini ribs
- ✓ Thinner lines
- ✓ Bow Tec
- ✓ Hybrid riser and line system
- ✓ Riser for big ears
- ✓ New design
- ✓ New lighter fabrics
